

MATH PLACEMENT PROTOCOL

Initial Placement

Students scoring at or above the 50th percentile and scoring average or higher in all four goal performances in mathematics on the NWEA MAP math assessment will be placed in Math 1 as a 9th grader.

Students completing Math 1 as an 8th grader with a grade of B or better and scoring at or above the 50th percentile on the NWEA MAP assessment will have the option to go into Math 2.

Students scoring below the 50th percentile will be placed in Math 1A.

During the high school freshman registration period, students who have scored below the 50th percentile will have the opportunity to retake the NWEA for proper math placement.

Also, during the high school freshman registration period, students scoring at or above the 50th percentile, but did not score average or higher in all four goal performances in mathematics on the NWEA MAP math assessment will have the opportunity to retake the NWEA MAP math assessment for proper math placement.

Reevaluation of Placement

No later than the 20th school day, appropriate math placement will be reevaluated to ensure proper placement of students. The re-evaluation criteria for such placement will include students scoring at or near proficiency or exceeding proficiency on the math CAASPP results and/or scoring at or above the 50 percentile on the beginning of the year NWEA MAP for math.

Appeal Process

Within 20 school days of an initial placement decision or a placement decision upon reevaluation, a student and his/her parent/guardian who disagree with the placement of the student may appeal the decision to the Superintendent or designee. The Superintendent or designee shall decide whether or not to overrule the placement determination within 10 school days of receiving the appeal. The decision of the Superintendent or designee shall be final.

District's Commitment

It is the district's commitment that students have the opportunity to complete mathematics courses recommended for college admission. Listed are the possible math course pathways to fulfill that commitment:

9th grade	Math 1A	Math 1A	Math 1	Math 2
10th grade	Math 1B	Math 1B	Math 2	Math 3
11th grade	Consumer Math	Math2	Math 3	Pre-Calculus
12th grade		Math 3	Pre-Calculus	AP Statistics or AP Calculus (or)
				Math 2
				Math 3
				Calculus Honors (Junior or Senior)
				AP Slats (Junior or Senior)
